

District to Hold Meetings Highlighting Safety Measures

St. Vrain will hold two community meetings to update parents on student safety and security measures. The District will also solicit input from parents regarding internal cameras and a visitor management system.

SVVSD Safety and Security Community Meetings:

- Tuesday, January 24, 6-7:30 pm, Altona Middle School, 4600 Clover Basin Drive, Longmont
- Thursday, January 26, 6:30-8 pm, Heritage Middle School, 233 E. Mountain View Ave., Longmont

“The District has implemented several new safety and security measures over the past year and enhanced some existing programs,” stated Stacy Davis, St. Vrain safety manager. “We will highlight these initiatives, including Safe2Tell, Standard Response Protocol (SRP) and campus supervisors and School Resource Officers (SRO),” added Davis.

SVVSD is also exploring the option of installing internal cameras and implementation of a school based visitor management system. Community feedback will be solicited.
